For Immediate Release: September 12, 2007

RMI Physician Services Corporation implements IMAGINeradiology™ as a Windows/SQL Server replacement in record time.

CHARLOTTE, NC – IMAGINE Software announced that RMI Physician Services Corporation of Houston, TX has successfully implemented IMAGINeradiology's™ practice management system, and migrated over 7.8 million patient charges, in less than 120 days.

RMI approached IMAGINE Software regarding their need to implement a new billing and collection solution and the migration of their data on a fast-track basis. After careful consideration of IMAGINE Software's technology and professional services capabilities, RMI determined that IMAGINeradiology™ offered the advanced functionality and database design they were seeking. The IMAGINE team possessed the resources and positive attitude to meet the challenge.

"This was much more than a technology decision, and we were pleased with the willingness of the IMAGINE team to work so closely with us to accomplish this task", said Cindy Luu, President and CEO of RMI. "RMI was at a point where we needed to re-evaluate our billing platform to prepare for future growth and to enable us to maintain a high level of efficiency and effectiveness in our billing operation. We feel that the Imagine team shares our vision of continual and rapid advancement and is well positioned to quickly deliver innovative technologies. The billing and collections environment presents new challenges daily, and we have great confidence in meeting new challenges with IMAGINE Software's product and team. IMAGINE's functionality, coupled with their advanced OCR technology, offers us competitive advantages." she added.

"We are excited about the opportunity to work with RMI and its management team to accomplish this challenge", says Sam Khashman, President and CEO. "This has been an excellent example of true partnering with a can-do attitude by both parties to accomplish a total migration from one system to another and to do so efficiently."

About RMI Physician Services Corporation

Since 1994, RMI has helped radiology practices and imaging facilities effectively code, bill and collect for their diagnostic and interventional services while providing comprehensive accounting and administrative services that enable physicians to focus on caring for patients.

About Technology Partners (dba IMAGINE Software) and IMAGINeradiology™

Technology Partners has led the way in developing and supporting automated radiology business management solutions for several years with its flagship product, IMAGINeradiology™. A wide range of Microsoft-based office tools and features makes integration and conversion to IMAGINeradiology™ easy. The IMAGINeradiology™ System has been heralded for its ability to streamline billing/collections workflow, improve staff productivity and increase practice profitability with an unsurpassed billing engine and collections automation that reduces the lifecycle of claims. IMAGINeradiology™ offers its own advanced document imaging technology, an Auto Coder feature, EOB Reader, and direct-to-payer claims submissions, as well as electronic remittance.

The IMAGINeradiology™ team offers highly acclaimed products and services that have revolutionized the way practices and billing offices do business. With the full support of its customers, leadership, and partners, TPI provides innovative products that expand to accommodate the changing needs of today's medical practices.
