New Client Achieves Record Month with IMAGINeradiology™

CHARLOTTE, NC – IMAGINE Software announced that MBS Associates, LLC of Salt Lake City, UT has achieved record revenue in their 3rd month using IMAGINeradiology™, practice management system. “Our revenue for November is 13% higher than any other month in our client’s (Pediatric Radiology, P.C.) history”, say David Monaghan, Executive Director for MBS.

Monaghan credits the success to a smooth implementation with the hard work of his staff at MBS and the IMAGINE team working together toward a common goal. MBS implemented the IMAGINeradiology™ system in September 2007 and have experienced increased efficiencies in coding, charge posting, A/R follow-up and payment posting with no change in volume, or services rendered at the practice. “The implementation was so successful and I felt confident enough to attend the RBMA fall conference in Nashville about a week after go-live.”

“MBS, lead by David Monaghan, is a forward thinking practice that made it easy for IMAGINeradiology™ to show its strengths. I am confident that this is the beginning of many more upsides that MBS will experience. An overachieving staff coupled with strong technology is a recipe for long-term success. ”, says Sam Khashman, President and CEO.

About MBS Associates, LLC and Pediatric Radiology, P.C.

MBS Associates is a radiology revenue cycle management company that serves as an extension of our client’s practices through providing sophisticated and focused billing and collections services to small and mid-sized radiology groups, imaging centers, and radiology practices that have significant subspecialty expertise (e.g. pediatric radiology).

Pediatric Radiology, P.C., based in Salt Lake City, UT, is a twelve doctor practice specializing in pediatric imaging.

About Technology Partners (dba IMAGINE Software) and IMAGINeradiology™

Technology Partners has led the way in developing and supporting automated radiology business management solutions for several years with its flagship product, IMAGINeradiology™. A wide range of Microsoft-based office tools and features makes integration and conversion to IMAGINeradiology™ easy. The IMAGINeradiology™ System has been heralded for its ability to streamline billing/collections workflow, improve staff productivity and increase practice profitability with an unsurpassed billing engine and collections automation that reduces the lifecycle of claims. IMAGINeradiology™ offers its own advanced document imaging technology, an Auto Coder feature, EOB Reader, and direct-to-payer claims submissions, as well as electronic remittance.

The IMAGINeradiology™ team offers highly acclaimed products and services that have revolutionized the way practices and billing offices do business. With the full support of its customers, leadership, and partners, TPI provides innovative products that expand to accommodate the changing needs of today's medical practices.
