For Immediate Release

Charles Kauffman as Director of Engineering — IMAGINeradiology™ Continues to Build out Management Team

Charlotte, NC – May 2, 2007 – Technology Partners, Inc., a leading provider of optimized and automated radiology practice management solutions and home to the IMAGINeradiology™ System, today announced the promotion of Charles (Chuck) Kauffman to Director of Engineering. Kauffman is a “new world” programming business intelligence veteran with several years of experience in the radiology and business application sector. He replaces Brian Hart who has assumed the position of Vice President of Operations for the IMAGINeradiology™ team on May 1, 2007. Prior to that, Kauffman was Development Manager for both Technology Partners and Inspiration Technology’s IMAGINeradiology™ suite of modules. Technology Partners also provides municipality imaging component offerings.

Kauffman started his career by solving complex technology challenges for a wide variety of companies. During his time on the IMAGINeradiology™ team he made many technical and business contributions to enhance the features and flexibility of the system.

“We are pleased that Chuck has joined the IMAGINeradiology™ executive team as we continue to develop the number one radiology practice management system in the country” said Sam Khashman, CEO of Technology Partners, Inc. “We are excited to have Chuck help us build on our market leading position in the delivery of automation, unsurpassed speed and streamlined workflow to the radiology market.”

“I am very excited about the enormous opportunities in front of the IMAGINeradiology™ team,” said Kauffman. “Having been in the “new world” of software development, it is exhilarating to be part of the IMAGINeradiology™ team at a time of rapidly accelerating industry challenges, working with a company and team known as the leading radiology practice management and billing solution provider.”

About Technology Partners (dba IMAGINE Software) and IMAGINeradiology™

Technology Partners has led the way in developing and supporting automated radiology business management solutions for several years with its flagship product, IMAGINeradiology™. A wide range of Microsoft-based office tools and features makes integration and conversion to IMAGINeradiology™ easy. The IMAGINeradiology™ System has been heralded for its ability to streamline billing/collections workflow, improve staff productivity and increase practice profitability with an unsurpassed billing engine and collections automation that reduces the lifecycle of claims. IMAGINeradiology™ offers its own advanced document imaging technology, an Auto Coder feature, EOB Reader, and direct-to-payer claims submissions, as well as electronic remittance.

The IMAGINeradiology™ team offers highly acclaimed products and services that have revolutionized the way practices and billing offices do business. With the full support of its customers, leadership, and partners, TPI provides innovative products that expand to accommodate the changing needs of today's medical practices.
